#46 Recipe for Cellular Respiration

Stage 1 Stage 2 Stage 3
 extracellular Absorption Cellular respiration
 digestion

outside the cell

through the cell membrane

inside the cell

▽ = slow down process

Complex Carb (starch)

- pasta
- grains
- vegetables
- starches

+ Enzymes →

Simple carbs

sugar + oxygen → energy

- corn syrup
- table sugar
- chocolate
- soda
- honey
- juice

forwards reproduction

gas
Carbon Dioxide

heat helps it happen faster
